We are not the source of this link. It is the only link for Tejon that Indianz found and David Laughing Horse has indicated to them this site represents all Tejon. Indianz said they did the link because they reached out to Arlinda, but she is telling Indianz that she doesn't have a letter from Echo Hawk yet to share with them. Can we send the letter to Indianz?

Sorry to keep chiming in here - would also suggest noting somewhere on the release that the tribe is located in California.

Hi folks - I think this timing works - as long as congressional notifications are also made in advance... (so that might push the press release timing back).

Importance: High

Hi -
Here is the latest version of the Tejon PR. Upon the latest email from Michael Berrigan [REDACTED] the ASIA boilerplate has been changed to reflect the new total number of federally recognized tribes to 566.
I understand the call to the tribe will take place at 1PM and we will plan on sending the press release out at 1:30pm, if that is still the plan.
Thanks.
Nedra
